Dear Parents,

The ICAS Mathematics Test will take place on Tuesday 11th August. The ICAS papers test the children's knowledge in the area of Mathematics, however they are not set from the Syllabus being used to teach knowledge and skills in this area. Therefore much of the content in the exam may not have been taught in class. However they are good practice for children and are a way of recognising children's academic ability.

This is not a compulsory activity. If you would like your child(ren) to participate in the ICAS Mathematics Test please fill in the permission slip below and send in the payment of $9.00 by Friday 5th June.

I will organise a suitable space for the students to sit the test on the set day.

Yours sincerely,

Steve Maguire
