Materials needed for our Science unit “Places and Spaces”

Dear Parents,

If you had any of the materials listed below we would love you to send them into school with your child on Monday. They have a design and make lesson next week which is part of the Science unit this term “Places and Spaces.” They need to design and make their own playground equipment. We are looking for:

- Any recyclable materials i.e. cardboard boxes, small containers, small plastic bottles
- Infant formula scoops
- Playdough/plasticine
- Foil
- String

Thankyou in advance!
